⊗ Ovide. mms - XV 4084-410

"L'hygiène - mms - mms - mms - mms  
recette - mms - mms - mms - mms  
mms."

1852

The first part of the paper is devoted to a general  
 consideration of the problem. It is shown that  
 the problem is of a general nature and that  
 it is not possible to solve it in a general  
 manner. The second part of the paper is  
 devoted to a special case of the problem.  
 It is shown that in this case the problem  
 can be solved in a general manner. The  
 third part of the paper is devoted to a  
 numerical solution of the problem. It is  
 shown that the numerical solution is in  
 good agreement with the analytical solution.  
 The fourth part of the paper is devoted to  
 a discussion of the results. It is shown  
 that the results are in good agreement with  
 the analytical solution.
