5. From whence it follows, that 100,000 persons dying of the Plague, above the ordinary number, is near 7 Millions loss to the Kingdom; and consequently how well might 70,000*L.* have been bestowed in preventing this Centuple loss<sup>1</sup>?

6. We said, that the late mortality by the Pest, is a great loss to the Kingdom; whereas some think it but a

<sup>1</sup> This seems to be the germ of Petty's plan "Of Lessening y<sup>e</sup> Plagues of London," dated October 7, 1667 and here reprinted from Lord E. Fitzmaurice's *Life*, pp. 121—122:

1. London within ye bills hath 696<sup>th</sup> people in 108<sup>th</sup> houses.
  2. In pestilentiall yeares, (which are one in 20) there dye  $\frac{1}{6}$ th of ye people of ye plague and  $\frac{1}{6}$ th of all diseases.
  3. The remedies against spreading of ye plague are shutting up suspected houses and pest-houses within  $\frac{1}{2}$  a mile of ye city.
  4. In a circle about ye center of London of 35 miles semi-diameter, or a dayes journey, there live as many people and are as many houses as in London.
  5. Six heads may bee caryd a days journey for 20<sup>th</sup>.
  6. A family may bee lodged 3 months in ye country for 4<sup>th</sup>, so as ye charge of carrying out and lodging a family at a medium will be 5<sup>th</sup>.
  7. In ye greatest plague wee feare, scarce 20<sup>th</sup> families will bee infected; and in this new method but 10<sup>th</sup>, ye charge whereof will bee 50<sup>th</sup> pounds.
  8. The People which ye next plague of London will sweep away will be probably 120<sup>th</sup>, which at 7*L.* per head is a losse of 8,400<sup>th</sup>s, the half whereof is 4,200<sup>th</sup>s.
  9. So as 50 is ventured to save 4,200, or about one for 84.
  10. There was never a Plague in ye campagne of England by which  $\frac{1}{6}$ th of ye people dyed.
  11. Poore people who live close dye most of ye plague.
  12. The Plague is about 3 monthes rising and as much falling, which cold weather hastens.
  13. Killing dogs, making great fires in ye street, nor the use of medicaments are considered sure, for which everyone by common directions may bee their owne Physicians.
  14. In ye circle of 70 miles diameter, choose 10 large wide roomey disjoined houses with water and garden to each, the Inhabitants to remove at 7 dayes notice.
  15. Convenient wagons or coaches to bee prepared to carry away ye suspected.
  16. A method to furnish ye pesthouses with medicines for their mony.
  17. Bookes of devotion for every house.
- Proposalls*—When 100 per week dy, the Plague is begun. If there dye fewer than 120<sup>th</sup>; out of ye bills, of all diseases within a yeaer after, then W.P. is [to] have 20<sup>th</sup> per head for all lesse and to pay 10<sup>th</sup> per head for all above it.
- Every family removed being to provide 10*L.* for ye charge of going and coming and for 4 monthes rent. Or a gratuity of...with W.P. his insurance.
