Typical North English - but if - as I suspect, I love it as
most would be - I have been nearly - nearly perfect only at
Sun & dusk.

Dear Aunt - 11-11-95

My most dear Vernon

When did I leave off?

I have a most lovely journey for Mountain
Roads Town - Kullarke - only missing
a touch for you. How beautiful this
high farm & forest - like land of the
Jura - with its splendid views.

The distance between a wall
of mountains & a great snow
peak - in a long line, mile & mile
of it - I have says it was not to Mount Blanc
& I think Ross I saw not to Bernese
Plateau - & Grand Combin - there is
a gap a few hundred feet above the Pass of
Kullarke you can see Mt Blanc - as high
as heaven itself, and as unbroken dwarfed trees.
But what I saw I saw already that
the autumn world too you can imagine
how wonderful & glowing.

There is a no container and case a stream
I kept (Penny Steward) - Then young people
met me at the house of the agent - 11 at night -
There was a very friendly - I made him
stems a claim about all the provisions
granted. The representative says the state
a. I believe of the country immediately
difficult and a border dispute
representative is serious of international
trade that he was was in whole
optimistic - As long as other countries
do not follow suit or shall reap
benefit of it - When they do as he
says they must - he shall have to adopt
tariffs & equalize imports & exports
he says that Germany is a villain
of peace - America & he have to
leave Germany on an enormous
scale since the war & that the
systematic spent - all the money

At home time South America - China - Brazil defaulted

as cannot repay them - & not even the
loan to Germany could not be called up
a few weeks ago when H. B. Smith of England
needed the ^{*} we saw how they were
shaking - then Zoude for the houses, the houses
of the state - they are all, then with a definite
object - save, do they - & that they can pay nothing -
I asked him at what - & he was what
the situation as he said high, as soon
as confidence is restored - then in a stable
position. But he foresaw the devaluation
of the currency with ^{some} ignominy & present
times of foreign exchange - Prices will
drop in countries which do not want to lose
their English trade with England.
There will be a redistribution of sales
but is what Lord Renshaw was after in Paris.
When London was the "capital" of Europe
money was at once redistributed - a loan
to the state - & not in South America,
China, & Germany - America & France

have not understood the 4 degrees including
development. has come the standard
of want of Capital -

Does it make darkness, darker. -

The cats are curled at my feet &
very affectionate. - Also Paul was an
Orlando. - He has remained a
fine fellow & full of character

I did a telephone & Emily in Paris
I had no time for my. I met me
off Harcourt joining when married to
a niece of dear young American artist
a friendly Lawrence. - She has
more of the both - you know like
them both -

Now I have H. B. G. as cat. - must
own with only him & cat. - must
make y. think.

Paris was probably. Autumn is its

time - with the moon - the pale grey sky
the pale glowing poplars -

When I look the morning with darkness
& a fog I thought of you & thought of
dear sky & windows & window
myself back -

Will you tell me about yourself sometime
when you write - Tell me all the facts
of "Sleeting" - I am anxious to
know you are with you

You are much in my thoughts & will
be Wednesday - It's Claudine's
birthday too & I am very glad
to hear you are so happy & have had
that dear Ryan -

Love my best love. I shall play with R
& C every minute tonight & think of
you
