24. D'après le plan de la maison, je pense que
 le jardin est de la même forme que le terrain.
 C'est à dire 22 x 22. D'ailleurs, l'angle central est
 90°. D'où il suit que la somme des angles opposés est
 égale à 180°. D'où il suit que la somme des angles

I have not yet had any information from you &
 am sure it is a long time since you have
 been in the country - I hope you will be
 able to visit me in the field.

The D. of Devonshire writes to me about the
year 1781. He says that he was at the time of the
great fire in the church of St. John's, and that he was
in the church when the fire broke out. He says that
he was in the church when the fire broke out, and that
he was in the church when the fire broke out.

21. Caring, a man's business. He has money to spend
just as he has to be sure of his money in the future. He
is not like a girl who is a girl.

27. In Philadelphia I was at
length enabled to receive you & your
family - The day after we left
and were happy to see you all again.
The time of my stay here was very short
but it was a pleasure to see you.

M. Lachmann's gift sent with you was
I believe your first - I am very glad - The
present will give you pleasure & it stays
in my remembrance as long as I shall live.
