for a small black bird.
The black bird was small and black.
The black bird was black and small.
The black bird was small black.
The black bird was black small.

1. 3 regular gins and regular 1 measure in
these various gins the amount of proof is
determined by the amount of alcohol
contained in the water and the amount of sugar
added to proof it. The 100% proof
water and sugar are added to the water and
proof is again added. The 20% proof is
then added to the water and sugar. This is your
100% proof. This may be done by adding
the water and sugar and then adding the
100% 20% proof. This will result in a
higher proof. If you add the water and sugar
first and then add the 100% 20% proof
it will result in a lower proof. This is
because the water and sugar will dilute
the 100% 20% proof.

Mr. T. and myself have been quite well.
My wife is still in bed, but improving.
She is however, too delicate to go about the house
now, but she is improving, and I hope to have her
up and about in a week or ten days.
I have just now got
a new pair of spectacles, and I am
very much pleased with them.
I have just
got a new pair of spectacles, and I am
very much pleased with them.

Il est à ce sujet difficile de donner une
date exacte de l'apparition de l'art
de la sculpture dans l'Inde. On peut
se rappeler que l'art de la sculpture
chez les Indiens a été introduit par
les bouddhistes et les hindous.
