Names in red ink & bold print

Dr. Ogden
Perry
McLean
Loring
H. L. G.

244

L. tenuis grows in moist places between
the 1st and 2nd firs - 1000 ft. - 1000 ft.
The wood is darkish - in fact
grows in openings, - in sun and
shady places along the stream banks.

George

M. D. Miller's - he was appointed
F. A. C. and to conduct his experiments
by Dr. Wm. H. Miller, M. D., of the Hospital
of the University.
In view of the importance of the plan to the
country and the results which it will produce,
it is to be hoped that the public will support
the Fund, and help to make it a success.
I am Dr. Miller's
unbiased

Yours in友谊 = dear son.

5 miles S of town where we have
the same great hills & the
same old stone walls made of
large stones.

On the way down the hill I
met a black dog who followed
me all the time. He was
very fat and had a very
long tail. He would run
after me and then stop
and look back at me.
He was a very friendly dog
and I think he liked me.
